

Do you love going to the beach in the summer? What activities do you enjoy doing on the beach? Picking up shells and rocks, building sand castles, or playing in the water? Do you know about the amazing creatures and animals that you can find at the beach or in the depth of the ocean? Let us dive into the exciting world of the ocean. We will explore different varieties of shells that you may spot at the beach, creatures like crabs on the sand, the seagulls flying above, and ocean animals like sharks, whales and jellyfish! We will learn facts like, “Jellyfish are mainly made up of water”, “Sharks do not have bones”, “Octopus is very intelligent”, or “Blue Whale is the largest animal on earth!”. Get ready for an adventure at the beach!
